PRESIDENT'S CORNER

Dave Olson

Wow, the last Tuesday in October was one windy day. Cooler weather, golden leaves on the Bosque, and I'd say winter in nigh. So, time to put on the extra layer. Some relief, the rides start later, and we are return to Mountain Standard Time this Sunday, November 3rd. For me, it will be my last input to the Freewheel as President. Leading to, we will have the annual election on Tuesday, November 12th at the Flying Star on Rio Grande (this is coincident with the Tuesday ride). For more details, go to page 3 or our webpage. PS: looks like we have free pie for the attendees. Perhaps even strawberry-rhubarb—yummy!

We are concluding the nominating period for the Board of Directors 2025. Good news, we will have a new president. Not so good, we still have openings for Vice President and Secretary. We have posted the slate on our website (www.nmts.org) and can be found on page 3 of this newsletter. For the open positions, we will take them right up to the vote. If one wishes to compete for one of slated slots, please contact me, Frank Bouchier, or Darcy Lewis in the next week so we can adjust the slate.

An award goes to Liz Born. As a new member, she rose to fame by becoming our current vice president. She will soon become our shortest serving VP and is slated to pick up the Freewheel Editor from Darcy Lewis. Darcy is slated to pickup the mantle of President. I'll save the congrats until after the election.

Probably mentioned before, but we will have a Christmas Pot Luck. Wes Young has again volunteered the community room at his apartment complex. Last year it was a really good deal. Unfortunately for me I will not be able to attend. I strongly urge you to put the date on your calendar. More details on page 3.

We are separating the Awards and Recognition event. This coming year, Chris Marsh will host the Recognition event for club contributors such as ride leaders. Bill Thompson will be the lead for the Awards Dinner. We will post the date, time, and location on the webpage.

The latest on e-bikes and the Bosque. As some may have noted on our website, the initial restriction on the Bosque trail no longer exists. I also note portions of the MTB trails in Elena Gallegos are also open. The latter is on a provisional basis as CABQ evaluates impact. I share with you two common concerns—really complaints—levied against e-bikes. One is speed. So, to reiterate, power is a capacity; speed is a

Ride Rating System

Mileage: Is total distance for the ride's route. Ride may include options for variations on the route and if so will specify additional distances within the ride description.

Pace: Is the speed a rider is expected to maintain on flat terrain with no wind. Think of it as an indicator of level of effort. Actual speed would be slower on climbs and faster on descents. The Pace is also not equivalent to average speed, because a route usually includes stops (rest stops, stop signs or lights, etc.), which will reduce the average speed.

Terrain: A descriptor of the ride's route terrain. In order from easiest to more difficult: flat; minor hills; moderate hills; frequent, steep hills; and advanced, difficult climbing.

Choice. For the e-MTB’s a concern is impact on the trail. I don’t dismiss it in principle, I just note studies concluded there is no appreciable difference. It still comes down to one thing: e-bike or not, courtesy and good sense are always in vogue.

The Board is examining some fee changes in Ride with GPS. Frank is the point of contact and will publish information on our website.

I want to thank the volunteers who again supported the Balloon Fiesta bike valet. Apart from providing a welcome service for the world-famous event, it also results in a very nice contribution to the Club’s treasury. Bravo Zulu (Navy talk for “well done”).

Ride safe, often, and have fun!
