

Trinity Site CueSheet / 68 Miles Roundtrip, 1,600' Elevation gain

<i>Mileage</i>	<i>Waypoint</i>	<i>Leg Description</i>
0	San Antonio	Start locaton - try the park across from the Owl Cafe.
12	Turn off to WSMR	White Sands Missile Range Stallion Site turnoff.
17	WSMR Entrance	Photo Id Required. There is a parking lot with port-a-potties just outside the guard shack.
30	Explosives Test Site HQ	The turn is marked, you can't see the site yet.
	Trinity Site	The circular Trinity Site is visible in the distance after the turn. Stop at the dirt parking lot. There may be porta-potties here. There are several exhibits and signs. Those are the Oscura Mountains to the east.
34		Return by the same route or take the McDonald Ranch option if it is allowed. Wave at the guard on the way out of the WSMR. Turn LEFT (west) on US380 to San Antonio. There's only the one hill on US380. Hopefully, there is not the usual afternoon west wind on US380.
68	San Antonio	Check out the historic Owl Cafe bar.
Option		The Historic McDonald Ranch Tour option, only when allowed, starts at the Trinity Site.
34	Trinity Site	Starting at the Trinity Site, ride south from the parking lot about a mile and a half paralleling the Oscura Mountains to the east.
35.5	Turn off to Ranch	Signed. Turn left (east) onto packed dirt/gravel road. Easy ride on road bikes and even tandems. Tour the historic headquarters / ranch house. Oscura Peak (8,638') directly east of the ranch, maybe 5 miles away, is also on WSMR. Return by the same route to the pavement.
37.5	Back to the pavement	Turn left (south) if this is the allowed direction. You might have to backtrack to the Trinity Site
42	Intersection	Turn right (north) and head back towards the way you came. There isn't much else out here. The Little Burro Mountains are southeast of the turn and the Mockingbird Mountains are south. Interestingly, further southeast from the intersection this road is the northern perimeter of the WSMR Century out of Tularosa.
47	Explosives Test Site HQ	Continue straight (north) through the intersection.
62	WSMR Entrance	Continue straight through. Wave a thank-you.
67	US380	Turn left (west) towards San Antonio. Just the one hill now.
79	San Antonio	Starting location. Have lunch and thank the WSMR folks for a great ride.
